

### **End of February**

The February craft ('Pop-up Cards') ended up being very popular! We gave away 32 out of 35 craft kits. We also had many patrons excited about decorating paper hearts with why they love their library. Everyone who filled out a heart (adult AND youth) was entered into a raffle for a goodie bag. At the end of February we drew an adult winner and a youth winner. Success!

*Story Time!* continues to have 4-5 regular child attendees, with occasionally guests and new attendees cycling in. *CPL Game Club* has had 1 attendee since we've started it up. I'm positive we'll see *Game Club* grow; between snow days and school breaks the month of February was strange. I believe we'll see an increase in attendance in time.

*Digital Learning Day*, which was on February 22nd, had 1 attendee. That attendee came back the very next day to finish working on the digital scavenger hunt I'd put together.

At the very end of February, I met with the Columbia & Greene Counties Youth Clubhouse to discuss moving forward in ages 12+ programming. Bathsheba and I had our initial 2022 Summer Reading meeting, which we hope to repeat soon in March!

### **March**

The 'March Mystery Kit' has been successful! In the week they have been available, we have already filled registrations for half the kits.

The *CPL Game Jam* will begin Friday March 11th and continue through Friday March 25th. We have advertised online, in the library, and with the middle and high schools. I hope to see registrations and completed games; aside from the raffled books, we've also offered to host completed games on our website.

Public Narcan Training is on March 10th.

### **Upcoming**

Our weekly recurring programs through April: *Story Time!*, *CPL Game Club*.

Monthly recurring programs: Public Narcan Training, back to Craft Kits (an 'April Showers' Wreath), and a new Saturday program called 'Saturday Morning Cartoons'.

Special programs/outreach: I will be visiting the CCSD middle school to speak to 6th grade classes in early April. Bryan Zimmerman from Tobacco-Free Action has reached out to partner for a PG-13 movie night. We will be doing another writing-based program in April to celebrate poetry month and I hope to continue it into May.
