

## Directors Report November 2022

**Building Update:** I am happy to report that the scaffolding has been taken down. I will be meeting with [Mike Maloney](#) to prepare for the second part of the painting project and will update you at the next meeting. The next part of the project will be painting the east and south side facade. Those parts of the building will be power washed to remove dirt and debris and to assess if there is any loose paint or mold issues. The areas will be scraped and sanded and any necessary repairs will be done and finally the areas will be painted.

**Food for fines:** We are accepting food donations and waiving people's fine for the month of November. All donations will go to God's Storehouse, a food pantry serving residents in the Catskill Central School District. We have already received donations and are getting positive feedback.

**Great Give Back:** We also had a successful collection of personal hygiene items that we gave to Community Action of Greene County. We will continue this new tradition every year!

**How to help the unhoused:** Staff member [Pat Ruck](#) has created a document for staff that provides information for staff to help patrons if they are evicted or need help with a sudden loss of their housing. Please see attached.

**Library Policy:** I created a new document Library Board members continuing education. Please see attached for approval.

Respectfully submitted

[Caroline Ford](#)
