

March:

- I scheduled a presentation by the New York State Department of Labor on their Fostering Access, Rights and Equity (FARE) for Women program, which provides information on employment rights and benefits for women workers in New York State, which so far has had no registrants.
- Emily and I are holding a family-oriented Mystery Movie Night this Friday, with a showing of the movie "Clue." We are encouraging costumes and will have themed party favors and refreshments. If it is successful, we will try more in the future.
- The Book Club is holding steady at 5 participants but we had a couple of new people this time.

April:

- We have the glasses needed for viewing the April 8th solar eclipse.
- Emily and I are working together on an Earth Day program, as we did last year, to be held at Beattie-Powers Place.
- TurboTax will end on the 15th.

Miscellaneous:

- Our Wi-Fi hotspots are closer to ready to circulate.
- I am hoping to hold Cornell Cooperative Extension Master Gardener programs at Beattie-Powers Place and am working with the Friends group there to schedule for May and/or June.
- Visits by In Flight, a group similar to ARC, have begun. The two groups will alternate weeks.
- Someone from the Alzheimer's Association is coming in May to talk about "Understanding and Responding to Dementia-Related Behavior." They offer several programs, so if this one generates interest, we will probably schedule more.
- Questar III was able to hire a new English as a New Language teacher, so those classes have resumed at the library. They already have four students!
- I continue to look forward to receiving reference questions
